Brainercise Riddle

What is it that when you need it, you can't buy it and when you can buy it, you don't need it?

Who Am I?

140°F Cooked or 160°F Cured

Fun Bible Facts Wheat in the Bible

"Wheat" is mentioned in some form over a hundred times; Jesus used the harvesting of it in His parables and teachings. To understand it completely, one must first understand the act of harvesting the wheat of Israel.

The act of harvesting wheat began by cutting the ripened grain, followed by binding it into sheaves. When this was done, gleaners gathered what was left as they walked behind the cutters.

After the stalks were bound into sheaves, they were transported to the threshing floor. The act of "threshing" is to strike the grain repeatedly so as to separate the grain from the straw. The wheat is then "winnowed," which was done by tossing the grain into the air with a winnowing fork so that the wind blew away the left over straw and chaff (the worthless seed coverings and other debris), leaving the grain at the winnow's feet. Finally, the grain was sifted to remove foreign matter, then bagged for transportation and storage.
