### Fun Bible Facts Oldest Christian Bible

Codex Sinaiticus is one of the most important books in the world. Handwritten well over 1600 years ago, the manuscript contains the Christian Bible in Greek, including the oldest complete copy of the New Testament.

Codex Sinaiticus was copied by more than one scribe. Constantine Tischendorf identified four in the nineteenth century. Subsequent research decided that there were three, but it is possible that a fourth (different from Tischendorf's fourth scribe) can be identified. Each of the three undisputed scribes has a distinctive way of writing which can be identified with practice. Each also had a distinctive way of spelling many sounds, particularly vowels which scribes often wrote phonetically. One of them may have been a senior copyist.
